

The Electronic Health Record

MHS GENESIS, the new electronic health record for the Military Health System, provides enhanced, secure technology to manage health information.

MHS GENESIS integrates inpatient and outpatient solutions that will connect medical and active duty dental information across the continuum of care, from point of injury to the military treatment facility. This includes garrison, operational, and en route care, increasing efficiencies for beneficiaries and healthcare professionals.

When fully deployed, MHS GENESIS will provide a single health record for service members, veterans, and their families.

More Information

MHS GENESIS

The Electronic Health Record

Capabilities

MHS GENESIS will support the availability of electronic health records for more than 9.4 million beneficiaries and approximately 205,000 Military Health System personnel globally. It enables the application of standardized workflows, integrated healthcare delivery, and data standards for the improved and secure electronic exchange of medical and patient data.

To meet unique military needs, MHS GENESIS will replace select Department of Defense legacy healthcare systems, including but not limited to: AHLTA, the Composite Health Care System (CHCS), inpatient, and components of the Theater Medical Information Program-Joint (TMIP-J).

Patient Portal Access

To access the MHS GENESIS Patient Portal, visit <https://patientportal.mhsgenesis.health.mil>. Beneficiaries can log in to the MHS GENESIS Patient Portal using their DS Logon. Premium Access (Level 2) is required to view the health record.*

In preparation for the new MHS GENESIS Patient Portal, log in to milConnect and create your DS Logon. Beneficiaries with an existing DS Logon should upgrade their account to Premium Access. A link to the “My Access Center” is available via the MHS GENESIS Patient Portal landing page to direct patients on obtaining their DS Logon credentials.

For questions regarding the DS Logon, visit www.dmdc.osd.mil/milconnect or contact the Defense Manpower Data Center at (800) 538-9552.

* Prior to your facility transitioning to MHS GENESIS, receiving a reply of “No Records Available” indicates a successful patient portal login.

Key Features and Benefits

Key Features:

- Two-way communication
- Agile, responsive system which supports the delivery of high quality healthcare to beneficiaries
- Integrated medical and active duty dental record throughout the continuum of care

Key Benefits:

- Monitors greater population health data, tracking, and alerting capabilities
- Improves ability to monitor patient safety, outcomes, and operational and medical readiness
- Improves data access and sharing of health information
- Increases accessibility of integrated, evidence-based healthcare delivery and decision-making
